CIS LE07507791000000666

Masseria del Borgo is a wonderful example of an ancient Salento rural residence. Originally from the 17th century, today it has been splendidly restored to become a charming residence that welcomes those who want to live a holiday experience with an authentic flavor without giving up the comforts of modern homes. The walls, the high vaulted ceilings, the large and fresh interiors are evident testimony of the past made alive and current by the wooden elements from various parts of the world made specifically to furnish and refine the context. The internal courtyard, which once housed animals, today hides a secret garden full of beautiful plants and trees, embellished with a swimming pool perfect for enjoying pleasant moments of peace and relaxation during the hot summer days. Just 10km from the rocky Adriatic coast near Tricase and 18km from the wonderful white beaches of Torre Pali and the marina of Pescoluse. The historic center of the charming village of Specchia can be reached in just 5 minutes on foot.
